

GLOW11

Nov 4–6, 2025 | Munyonyo, Uganda

Building Resilient Ecosystems in the Great Lakes

An
International
Conference!

Themes

1) Great Lakes Governance

- a) *Policies, laws and regulations*
- b) *Research and knowledge systems*
- c) *Institutions, infrastructure and human resources*
- d) *Co-management and inclusivity*
- e) *Transboundary cooperation*

2) Ecosystem Restoration and Water Quality Management

- a) *Integrating ecosystem restoration with changes to lake and land use*
- b) *Pollution control (including micro plastics)*
- c) *Invasive aquatic organisms*
- d) *Biodiversity conservation*
- e) *Climate variability and change*
- f) *Remediation and restoration of the African Great Lakes (using the Great Lakes Water Quality Agreement guidelines)*

3) Fisheries and Aquaculture Management

- a) *Aquatic productivity and production*
- b) *Aquaculture (fish breeding, nutrition, fish health, production systems)*
- c) *Effects of non-fisheries blue economy investments (mining, tourism, maritime transport, dams)*
- d) *Capture fisheries production, fishing capacity, and Illegal; Unreported; Unregulated (IUU) fishing*
- e) *Post-harvest management and value addition*

4) Emerging Technology and Innovations

- a) *Technology, telemetry, remote sensing, innovations, and drones*
- b) *Use of AI in fisheries research*
